The E-ton Vector 250 is unique. Its heart is the smooth and powerful 250cc 4-stroke engine, counterbalanced, water cooled, economical and e-friendly. User friendly too, with its tough, reliable, full automatic CVT transmission that applies maximum torque and power all the way, without the fuss of changing gears. Sleek modern styling and packed with features such as full on road lighting, mirrors, LCD instrument cluster, disc brakes and much more. The Vector has other options, such as a towbar and big rear carry rack that make it a truly useful Recreational Vehicle for family fun around the campsite. Explore the trails and tracks. Take a closer look. This is the ATV you have been waiting for.
